

We believe a successful hunting experience includes:

- Making every effort to locate your ultimate trophy animal,
- A deep respect for the animal and environment,
- Healthy food that adds to your comfort and enjoyment,
- Easy comradery and lasting memories.

Our hunts are primarily done by horseback from cabins throughout the territory. From there we continue by horse or on foot for day hunts or overnight stays in remote spike camps. Each camp offers unique and varied terrain with elevations from 4350' - 10,000'.

The yearly Mule Deer migration through our territory from the Coast Mountains offers an abundance of quality bucks for trophy class hunts; the potential for taking Mountain Goat and Moose trophies is excellent. The area boasts healthy Black Bear, Timber Wolf and Lynx.

Experience **Trapline Tours** on our remote Chilcotin line! Snowmobile through pristine winter wilderness out to the line cabin, our home for the trapping stay. Enjoy daily outings by snowshoe or snowmobile for scouting, trap setting and checking for furs. Evenings are spent preparing hides and swapping tails around the fire. Enjoy rustic but comfortable camping and all-you-can-eat hearty home-cooked meals.

We look forward to welcoming you to our wilderness haven.
